104	Shanghai WanWay Digital Technology Co., Ltd	Shanghai Wanwei Digital Technology Co., Ltd. is a key national-level "Little Giant" enterprise specializing in niche sectors, leading the domestic market in full-scene IoT location big data services. With "Beidou + big data" as its core technology, it has built a globally leading Beidou-based digital service platform, offering end-to-end integrated solutions for smart cities, intelligent networking, and other fields. Based on the "end-pipe-cloud-network" architecture, it creates a closed-loop data service system. In 2019, it launched the world's first 5G intelligent positioning terminal and won an innovation award. As one of the first domestic enterprises to achieve large-scale application of GNSS multi-mode intelligent positioning terminals, it has provided Beidou-based vehicle networking services for over 16 million vehicles, processing over 8 billion data records daily, and safeguarded assets worth over 500 billion yuan. It also offers security services to over 1 million households. Its "Wanwei Technology" brand empowers customers' digital transformation through integrated services. In the future, the company will deepen the integration of "Beidou + AI + IoT" to drive global innovation in location big data services and build a smart digital ecosystem.	CEO	<p>(1) Investment Intentions:</p> <p>Our company is specialized in the research, development, production, and sales of multi-mode intelligent positioning terminals. In view of the growing market demand in Bangladesh and Sri Lanka and their important positions in the regional economy, we plan to expand our business in these two countries. We hope to establish a localized sales network and after-sales service center through investment, and carry out cooperation projects with local enterprises, so as to promote our high-quality multi-mode intelligent positioning terminal products to more fields, such as vehicle tracking, personnel safety protection, logistics management, etc., to meet the increasing demand for precise positioning technology in the local market.</p> <p>(2) Demands:</p> <p>Tax Preferences: We expect that the local government can provide corporate income tax exemptions or preferential tax rates for a certain period. For example, within the initial 3 to 5 years of investment, part of the corporate income tax can be exempted to reduce the operating costs of the enterprise and help us quickly expand and take root in the local market.</p> <p>Preferences for Land and Factory Building Lease: For the sites used for building sales centers and after-sales service centers, we hope to obtain rent subsidies or priority in leasing, and be provided with a reasonable-price and long-term stable leasing plan in suitable commercial areas. If it involves the possible</p>

113	China International Chamber of Commerce for the Private Sector (CICCCPS)	China International Chamber of Commerce for the Private Sector (hereinafter referred to as "the Chamber", short for CICCCPS) is the only national chamber of commerce in China established by the State Council of the People's Republic of China to serve private enterprises to go global and carry out international economic cooperation and exchange. The Chamber was established in 2011, with the All-China Federation of Industry and Commerce (ACFIC) as its business supervisor and the National Development and Reform Commission and the Ministry of Commerce as its guiding units. The Chamber takes "serving private enterprises to go global" as its purpose, and carries out activities to promote economic and trade cooperation between Chinese private enterprises and various regions in the world in accordance with Chinese laws, regulations and policies, paying attention to the demands of enterprises, safeguarding their rights and interests, and promoting their development in the process of economic globalization. At the same time to reflect the situation to the government departments and put forward rationalization suggestions on the relevant industry, regional economic and trade affairs. The Chamber's membership covers the leading private enterprises in various industries in China, and private enterprises of various scales that have gone out or are going out, and the group members are mostly national or provincial civil organizations, with an overall membership of over 500. In accordance with the functions assigned to the Chamber by the government, the Chamber has established close cooperation with many UN agencies in China, embassies and consulates in China, chambers of commerce and industry in China, and chambers of commerce and industry in countries along the "Belt and Road", and has carried out multi-level and wide-ranging foreign exchanges and cooperation. The Chamber has formed consensus and cooperation with Chinese government departments, investment promotion agencies, research institutes, leading enterprises, financial institutions, think tanks and other parties to create a platform to help Chinese private enterprises develop internationally, serve Chinese private enterprises to better carry out foreign trade and investment cooperation, and help promote high-quality and sustainable development of the global economy.
